

Project Milestone 1 Rubric

Criterion	Points	Comments
Progress Overview Have improved from the proposal, taking into account the feedback they received (if applicable). Have made significant progress since the proposal - this can include gathering datasets, making a concrete plan for the project	3	
Methodology Development Have a clearer methodology section that states exactly what you have done and will continue doing - models used, baselines established, metrics evaluated, initial runs.	4	
Implementation Progress The implementation section should now be a fully fleshed-out portion of the document, detailing everything about what has been completed. This can include baselines, models, datasets, evaluations, metrics etc. By this milestone, you should have implemented some naive baselines and/or evaluated on initial experiments	6	
Preliminary Results What results were you able to establish, this could include comparison baselines, initial runs.	4	
Next Steps and Timeline Explain what your goals will be for the next milestone	3
